Our extensive international network means that we can source electronics patent attorneys from outside of the UK to help ease demand, and have already been successful in doing so with a number of firms. If you can't find a candidate locally perhaps it's time to look further?

Fellows and Associates via international conference attendance has built a strong network of contacts across the world. With supply of UK candidates being low and the future of candidates from the EU uncertain we can help firms find candidates from jurisdictions such as New Zealand, Australia, South Africa, Canada and the USA.

For a detailed discussion on how we can assist you in your recruitment needs, please call Pete Fellows or Phillipa Holland on **020 7903 5019** or email: contact@fellowsandassociates.com.

Candidate? We're always happy to hear from you, simply get in touch on the email/number above.
