Mechanical Engineer, 1-2 Years PQE, Scotland

Provide exceptional service for an existing portfolio of direct clients overseas, as well as receiving and giving instruction via foreign agents. Develop and implement drafting and prosecution strategies both in the UK and Europe and identify possible areas for innovation. Build the future business of the firm and grow your own practice through sourcing and attending networking opportunities. Work directly with market leading clients, whilst enjoying a generous salary, excellent bonus scheme and a highly competitive benefits package.

strong portfolio of already existing contacts and clients, the firm needs an attorney with a track record in the highest levels of client service and an inking towards business development. You will help lead and grow the operation and be required to develop dynamic IP strategies that reflect a highly changeable local marketplace. Deal directly with senior decision makers and forge a reputable name for yourself in the industry.

Qualified, Electronics, London

A London firm with a penchant for excellence is in a position to radically grow their Electronics department. They

Qualified, Chemist, London

Ensure your security in the current economic climate with this recession proof firm. Whilst other firms have been struggling with retention over previous years, this London based private practice has been leaping from strength to strength. They offer a challenging portfolio of prosecution, opposition and litigation cases, with clients ranging from local SMEs to larger entities with a global reach. Traverse away from the normal duties required of you with the opportunity to complete strategic due diligence and offer advice on regulatory data protection.

hold a reputation for delivering truly excellent results - and have the client following to prove it. This role will have you developing strategies that address IP issues on both a micro and macro scale and will encourage you to focus on the commercial capabilities of your clients, both in the UK and overseas, including a heavy Japanese focus.

Qualified, Chemist, London

Gain exposure to a challenging portfolio of prosecution, opposition and litigation cases, as well as regular contact with high profile clients across the industry. The Chemistry department enjoy a keen interest in business development, meaning that there will be opportunities to attend various networking events and try your hand at client pitches. There is a trend for brilliance in their attorneys, so a strong academic

Finalist, Newly Qualified, Electronics, Yorkshire

A unique opportunity has become available in this growing and ever so stylish boutique firm in Yorkshire. Work closely with a loyal client base ranging from sole inventors to international corporations and gain access to revolutionary technology across a spectrum of sectors and industries. This role requires you to navigate away from the ordinary and become an integral foundation of this already successful private practice and its future, with access to an excellent portfolio of work and a truly excellent remuneration package to match.

Qualified, Mechanical Engineer, Midlands

Feel like you are becoming stagnant in your role? Frustrated that you are constantly overlooked, even though you have the necessary skills in your arsenal? This firm requires a qualified Mechanical Engineer to begin the process of

becoming their next generation of leader. There is a portfolio of extremely loyal and market leading clients waiting for you, plus the opportunity to build upon your own practice to suit your interests and strengths and mould the future of the firm as a whole.

Qualified, Biotechnology, London

An abundance of work has resulted in a need for a Qualified Patent Attorney to join this ever growing firm in London. Enjoy a meritocratic environment, surrounded by like-minded peers, and gain exposure to significant opposition and litigation cases, portfolios of high value prosecution and strategic due diligence work. This firm have a solid reputation across the industry and need determined individuals who will benefit from an energetic atmosphere, in which your judgement is trusted and your ideas welcomed.

Finalist, Newly Qualified, Electronics, London

Enjoy the contemporary surroundings of this avant-garde private practice and benefit from a forward thinking ethos coupled with an established and solid reputation in the industry. This firm offers the full catalogue of patent duties and encourages its attorneys at all levels to become involved in direct client contact and IP strategy from early on. A superb opportunity for someone on the brink on qualification, or recently qualified, who is ready to be thrown into the action at full force.

Finalist/Newly Qualified, Telecommunications/Software, Midlands

Opportunities outside of London are arguably no less attractive than those based within the boundaries of the glittering capital, as is definitely the case with this role. An unwavering firm of Patent and Trade Mark Attorneys are offering a share in their tremendous workload, with a portfolio of clients available across a diverse range of intricate and cutting edge technology. The modest nature of the firm allows you to dip into all aspects of the role, including drafting and prosecution; opposition and appeals; and more detailed responsibilities such as strategic planning and intrinsic advice.

Newly Qualified Trade Mark Attorney, Midlands

A modest yet highly successful private practice, which likes to do things a little differently, is in

need of a tenacious Trade Mark Attorney to help bring their outfit up to scratch. They take a real pride in their attorneys, with regular mentoring and appraisals, as well as allowing the more junior members of staff to become involved in the full gamut of trade mark work. The intimate nature of the firm means that a sizeable portion of the work will be yours for the taking, as well as the chance to voice your opinions and truly be heard.

Finalist/Newly Qualified, Electronics, West Midlands

Looking for a change of scenery? Or perhaps just ready for a move? This international firm are ready to welcome a finalist, or newly qualified, attorney with a background in electronics into their rather fantastic offices in the West Midlands. You will have the security and career prospects that a large firm can offer, whilst benefiting from a dedicated support structure and friendly environment akin to that of a smaller, more intimate business. All manner of patent work is available, allowing you to become a fully rounded, experienced (and don't forget successful) Patent Attorney.
