

A blend of commercial and technical.

Partner/Partner Designate,
Biotechnology/Biochemistry

Join a culture that is inclusive,
open and enthusiastic.

- Be the primary decision maker for all of Elkington and Fife's biotechnology work and help develop the firm's client offering
- Be part of an existing team that are at the cutting edge of patent prosecution and SPC proceedings and who have extensive experience in contentious work including EPO oppositions and litigation
- Be fully involved in discussions and developments relating to the biotechnology IP landscape and provide commercial and strategic know-how in building new client relationships
- Excellent potential either to become a Partner or for existing Partners of other firms to join at a commensurate level

To apply for this role please contact Pete Fellows of Fellows and Associates via email to pete.fellows@fellowsandassociates.com or phone: 0207 903 5019.
