STARRING CLINT 'DIRK' RICHARDS, DAVID BREWMEISTER AND RACHEL LE PENN

PRODUCED BY DANIEL SAVAGE MCLEAN, WRITTEN AND DIRECTED BY THOMAS DAVID
A FELLOWS COMPANY FILM, COLOR BY SUPERVISION

Chemistry Patent Attorney, Finalist/Qualified, Cambridge, £55,000+£65,000

Work with a stimulating range of clients, from multinational blue chip organisations through to SMEs and prestigious universities both in the UK and overseas, as well as being given the opportunity to further build and develop your client portfolio through various business development activities. You will cover a broad spectrum of the patenting process including the identification and drafting of inventions, through to prosecution and more challenging contentious work. Contact with local attorneys outside of Europe will also be required in order to prosecute patent applications internationally. This is an exciting opportunity to grow and manage your own client portfolio in a firm with a strong reputation for excellence. The environment is both supportive and progressive, and will offer the successful candidate a real opportunity to develop and excel, with Partnership being a real possibility in the future.

Electronics Patent Attorney, Part/Recently Qualified, Yorkshire, c. £43,000/c. £66,000

There is an established portfolio of direct clients and agency work waiting for you at this firm, originating from a wide client base of local businesses and academic institutions, SMEs and international giants in the field of electronics. Responsibilities will include original drafting and prosecution in the UK and Europe, as well as liaising with and instructing foreign agents on the protection of your clients' IP in jurisdictions overseas. You will be expected to work closely with your clients in the initial identification of IP and provide ongoing strategic advice and support throughout the full IP lifecycle. Although business development is not essential in building your practice when you join (as it is already quite substantial) it is hoped that you will be comfortable in assisting in the future acquisition of new clients to expand the team's fee earning capabilities.

Biotechnology Patent Attorney, Qualified, London, £60,000+

From day one you will be responsible for the ongoing provision of excellent services to a wide array of clients through both direct client contact and agency work. You will be involved with all stages of the patenting process, from initial IP capture and the drafting of inventions, through to filing and prosecuting applications on a national and international level, as well as highly valuable contentious work. The successful candidate will be given ample opportunity to further build their client portfolio to suit their own interests and strengths, and will be encouraged to attend a variety of conferences and CPD events. The firm offers a highly supportive environment and regular assistance will be provided by both the firm's Partners and a team of highly skilled clerical staff, in order to ensure the candidate's successful integration into the firm and their ongoing development.

Associate, Electronics, London, c. £80,000

Join a firm who are well known for providing their clients with a first class advisory service and sound protection of their ideas. You will be working with a range of interesting SMEs and innovative local direct clients, and your work load will be highly varied encompassing a number of technologies such as electronics, optics, mechanical configurations, software and computer related inventions. You will be able to gain significant exposure to litigation work, and will be given the chance to take the CIPA Litigation Skills Course if you haven't already done so. You will be encouraged to get involved in the marketing and business development of the practice and be entrusted with the supervision of more junior members of staff, by sharing your knowledge and experience via training and offering support. For the right candidate, there will be every chance to progress through to Partnership in a time frame that is much faster than is often the norm.

Dubai Opportunity, Qualified Trade Mark Attorney

This is a fantastic opportunity to join a prestigious global law firm and the largest IP operation in Dubai. You will have chance to work with a variety of engaging trade mark portfolios, belonging to prominent clients based within the MENA region and further afield. The firm are looking for a qualified individual with solid trade mark registration experience to join their dynamic IP operation. The team is made up of highly renowned professionals from world leading IP firms, as well as knowledgeable local practitioners with sound experience of the regional market. The role would suit a qualified trade mark attorney, a solicitor, or perhaps even a patent attorney who also undertakes trade mark work. Ideal candidates will have a minimum of 5 years' PQE experience encompassing trade mark registrations, and those with significantly more PQE will also be considered.

Chemistry Patent Attorney, Qualified, London, £62,000-66,000

This firm are internationally renowned for the first class advocacy and commercial support they provide their clients, as well as their strong track record when representing them at proceedings at the UK IPO and EPO. You will be joining a team environment that is supportive, collaborative and relaxed, and you will be working alongside a Partner who is recognised for their excellent technical ability and first class client portfolio. The team has strong connections with European clients and associates meaning your work load will contain an interesting European element, and you will be given the chance to provide strong commercial support to a variety of innovative clients; from SMEs to multinational corporations based in the UK and internationally. In addition, there will be the opportunity to work across a number of exciting technical areas, including but by no means limited to petrochemicals, beauty products and household chemicals.

Electronics Patent Attorney, Newly Qualified, London, c. £67,000

A leading patent and trade mark firm are seeking a newly qualified patent attorney for their prestigious London offices. You will be joining the firm's highly reputable electronics practice, working alongside a number of industry leading experts who are at the forefront of the profession, in addition to handling a diverse range of technologies such as electronics; communications; compression; computing; display and optical technologies; clean technologies; battery technologies; materials and nanotechnology; bio-informatics; robotic surgery; diagnostics; and medical devices. The team provides the entire spectrum of services to its clients and many of the Partners have handled high profile EPO hearings on behalf of a number of prominent names in the field. The team has an open and collaborative ethos, and they will offer the successful candidate an excellent support network and a brilliant opportunity for professional development.

Calling all IP Paralegals/Administrators, UK and Europe

If you are (or know of) an Intellectual Property paralegal or administrator who is looking for a new opportunity then we would love to hear from you. We have a number of positions available across the UK and Europe for individuals with varying levels of IP administration experience.
