*a lot of the firms we work
with offer flexible working

1 year's experience, Engineering/Physics, London

Firm with a European focus for a challenging, but fully supported, client facing role.

Senior Associate, Engineering, Bristol

Be involved with firm wide managerial decisions and be integral to its future development.

Nearly/Newly Qualified Patent Attorney, Electronics, London

Run your own practice from day one and collaborate with cross departmental teams.

Up to 2 years' PQE, Software/ICT, London

Experience the wow factor with state of the art offices and fantastic facilities and perks.

Partner Designate, Electronics/Engineering, Midlands

Highly flexible firm offering a fast track to Partnership.

Part Qualified Patent Attorney, Mechanical Engineer, East Midlands

Complete your training at a firm with an impressive track record in client and staff retention.

Recently Qualified Patent Attorney, Chemistry, Cambridge

A small but successful team needs a safe pair of hands to further grow their impressive client base.

Recently Qualified Patent Attorney, Electronics, South West

Represent this commercially savvy firm at a variety of conferences, both local and overseas.

Senior Associate, Biotechnology, London

Work with many of the leading biotechnology companies in the world.

Part Qualified up to 2 years' PQE, Chemistry/Pharma, London

Gain (more) experience of the full IP cycle, with close contact with clients at every stage of the process.

Finalist, IT&E, North

Be your own boss with the freedom to track down your own clients and manage your own budget.

Part Qualified Patent Attorney, Computer Science/Physics/Electronics, Bristol

Get more of what you want with a firm that really listens and delivers on its promises.

Qualified Patent Attorney, Electronics, Yorkshire

Travel the world as much (or as little) as you like at this firm that does things a little differently.

Associate, Physics, South West

Great variety of work, excellent progression potential.

Associate, Chemistry, London

Everyone's door is open at this firm with a modern approach to office working.

Trainee Patent Attorney (completed Queen Mary), Mechanical, West Midlands

Team up with industry experts and benefit from their knowledge in a collaborative environment.

Finalist, Life Sciences, London

IP experts from some really interesting backgrounds collaborate closely at this full-service IP firm.

Part Qualified Patent Attorney, Electronics, London

Benefit from one-to-one training and help shape the future of your own career.

Trainee Patent Attorney, Chem/Bio Mix, London

Big pharma and biotech clients, super training.

Qualified Patent Attorney, Elec/Mech, South Coast

Same fantastic clients as the capital but with less of a commute and more disposable income.
