Featured Positions

Qualified Patent Attorney, Electronics, London
Highly commercial firm with strong sense of self. Their stock in the profession has been rising in recent years and they are now, more than ever, a highly desirable firm to work for. With some marquee clients and some marquee attorneys this role will improve your skill as a Patent Attorney through new experience with tremendously interesting work. If your job is just a little too prosecution orientated then diversity and move to something much more rewarding.

Qualified Patent Attorney, Electronics, London
Sick of the drive to sell, sell, sell? Just want to get on with what you trained to do? Namely preparing and prosecuting patents? Networking paid! Be paid to get on with what you do best without having to be a slave to commercial drivers. Settle into a firm with an open culture of free flowing communication amongst attorneys who have a true passion for their subjects.

Other Opportunities:

Mechanical Patent Attorney, Qualified, London

Large international firm with local feel and supportive work environment. Deal with excellent clients, mostly direct, and a variety of interesting work. This firm will provide you with a great starting point from which to develop your own clientele and build a practice for yourself, while their continuous supply of work will never leave you twiddling your thumbs.

Electronics, Qualified Patent Attorney, London

In this climate Electronics attorneys could have their pick of any firm, but this is the one you really want to work for: a modern culture, superb clients, highly rated Partners, and most importantly, no politics or barriers to career progression. What more need we say?

Trade Mark Attorney with Client Following, London

This fabulous UK-wide firm is looking for a UK Qualified Trade Mark attorney who will bring a following to instantly start expanding the TM department. You'll take initiatives, but that doesn't mean you'll be left to fend for yourself. You will be given the opportunity – and the right support – to develop business on top of the portfolio you bring, allowing you independence and room to shape your own practice. Career prospects are golden at this firm: they are meritocratic to the bone and will give you everything you deserve and then some.

Mechanical Engineering, Part-Qualified to Finalist Patent Attorney, London

Finish your qualifications with this terrific firm. You will experience an excellent training structure as well as have access to some of the best mentors in the profession. Offering just the right balance of support and responsibility, this firm will challenge you and nurture your talents, so that you are ready to embark on the sparkling career they've got planned for you.

Two Qualified Engineering Patent Attorneys (Electrical or Mechanical), Leeds

Get into the thick of business life in Leeds with this friendly, service-oriented firm. If you enjoy working directly with inventors and R&D departments, you will love every minute of this job. So to get your hands dirty and join some of Yorkshire's top talent, all you have to do is apply!

Electronics, Part-Qualified Patent Attorney, London

Further both your career and education with this excellent private practice in London. One of the top track records of taking trainees through to qualification lends this firm the credibility you want from your training. On top of that you will receive personal guidance, and you will have exposure to direct clients to sow the seeds for your own portfolio of work in the future.

Part-Qualified Patent Attorney, Chemistry, London

A fantastic opportunity to join a top ranked firm early on in your career. The structure will allow you to learn from the best and develop your potential to the fullest, both while you qualify and afterwards. You'll be given your own responsibilities from the word go.

International Opportunity for Qualified European Patent Attorneys

Join a large international IP firm in their European flagship office in Brussels! This firm is looking for a leader, someone who can step in and take the European branch to the next level. Any technical discipline considered. The role would suit someone with a number of years' post-qualified experience, and an appetite for business development and strategic growth. This job offers an excellent career trajectory in an unusual and very exciting location, working in an international context.

Qualified Electronics Patent Attorney, Manchester

Become a prominent member in the ranks of the Northern operation of this extremely successful UK IP firm. You will need an excellent track record of electronics work and an instinct for business development, as you will be in a position to further strengthen the firm's Northern presence. However, you'll also find that there is a flexible and supportive atmosphere, not just in the Manchester office but throughout the UK.

Part Qualified, Electronics, London

Current training regime not up to scratch? Want more support to get through the exams quickly? Want to learn by developing a close bond with qualified attorneys who really know what they are doing? Want to be given the opportunity now to deal with clients rather than having to wait until you qualify? Then you would be right in drawing the implication that this firm can offer all of the above.
