Continued expansion within successful Biotechnology Practice - Two Positions: 1 Qualified, 1 Finalist

- Be part of a firm that continues to be highly successful
- Work with a wide range and impressive number of leading global brands
- Enjoy the autonomy and profile you deserve and a diverse range of work incorporating drafting, prosecution, oppositions and appeals
- Experience extensive direct client work in addition to an exciting international portfolio
- Benefit from a meritocratic career structure and competitive remuneration

We are recruiting two positions for this firm, who are a leading private practice. As a consequence both qualified and finalist level candidates will be considered and remunerated accordingly. Expected is a strong technical background in biotechnology demonstrated academically and in professional life, alongside a keen commitment to clients and their commercial issues.
