

**Qualified, Electronics
-Telecommunications/Software,
Midlands**

A small but sturdy private practice is growing their Electronics department with the addition of at least one qualified Patent Attorney with a background in telecommunications and software. The portfolio available to you is of an enviable quality and the work could be considered rare to that offered in the capitol. The closely knit teams will ensure your opinions and input will always be valued and, with the current movement within the firm, a fast route to Partnership may be possible in the foreseeable future.

Qualified Chemist, London

A major private practice is increasing their Chemistry department in order to tame their expanding work load. Enjoy significant opposition work, including attending oral proceedings in Munich; gain exposure to litigation cases; handle strategic due diligence and take responsibility for high value prosecution work. The amount of work available indicates a level of security, as well as probable routes of progression within the firm in the future.

Qualified Mechanical Engineer, Midlands

A qualified Mechanical Engineer is required for this well established and profitable firm based in the Midlands. There is a traditional feel without the noise of some more modern run firms, meaning the focus is truly on the work. Their client base is second to none with a real eclectic mix of work available, including plenty of original drafting, prosecution and some oppositions. The firm needs their next generation of Partner to step up and so this is a great opportunity to settle into a prosperous and forward thinking role.

Qualified Electronics, London

Many electronics candidates are in a position to steer their own course at present and some may not know which direction to take. This firm can offer the best of both worlds, with small and supportive think tanks being backed up by a stellar client base and a solid reputation across the industry. They are in need of a maverick to come and ease the currently cumbersome work load and help themselves to a share of the diverse portfolio of drafting, prosecution and opposition work, along with more contentious issues.

Qualified Trade Mark Attorney, Yorkshire

Throw yourself into a role with significant contentious work and gain responsibilities beyond the normal hum-drum. Benefit from an enormous amount of autonomy from the off and be encouraged to share your ideas to steer the future of the firm. Marketing efforts will be supported, such as INTA and MARQUES, and the firm are very generous with money, so expect a salary likely to be higher than market rate. Become a problem solver for your clients and watch your own portfolio grow, with considerable support from the firm.

Newly Qualified Trade Mark Attorney, Midlands

Begin the next stage of your career with a supportive firm that will encourage you to exercise your knowledge and experience gained through qualification. This modest, yet successful, private practice would like to welcome a spirited Trade Mark Attorney on board to help share their impressive work load. Gain international experience and take responsibility for your own portfolio of work, as well as building the future of the business through possible attendance at networking events.

**Part Qualified Electronics,
London**

Secure your qualification by joining this progressive private practice. In London, the firm has an enviable client base and portfolio of work. It encourages its attorneys to be part of a highly cooperative culture within a closely knit team encouraging contributions from each member. You will be supported in the full spectrum of patent work, including regular direct client contact, drafting and prosecution and oppositions – as well as advising your own clients throughout their process from the start.

Finalist, Electronics, London

A boutique firm need to grow their Electronics team in order to complement their growing work load. They operate a meritocracy so there's no danger of being overlooked by those who can shout louder, with an intricate and complex portfolio of work to boot. This firm encourages autonomy from day one with regular client contact and the opportunity to build your own practice, as well as ample support available if needed through your qualification. Become a well-rounded Patent Attorney with exposure to the full spectrum of duties, including drafting, prosecution and opposition - as well as some contentious work and litigation.

**Qualified, Biotechnology,
London**

Join a firm that has celebrated strength throughout the recession with on-going success and be welcomed into their Biotechnology department. Work with internationally known Partners and hold them as your peers, as well as your mentors. This role requires the ideal candidate to take responsibility lateral to the normal day-to-day duties, such as strategic due diligence and advice on regulatory data protection. The firm operate a meritocracy and so those who achieve are rewarded, and are rewarded well.
