

## Timing is everything

### Featured Positions

#### Trademark Practice Acquisition, London (but other locations considered)

Trademark practice required with a turnover in the region of £750,000 - £3 million to join a highly successful London firm. This private practice of patent attorneys has an existing trade mark department but wishes to dramatically improve its offering by securing the support of another team. The firm is most interested in small to medium practices with an existing team of attorneys who will stay with the new merged business post acquisition. They will consider a simple purchase or succession planning that allows for new future equity Partners. Also considered might be recruiting the entire trade mark department of a competing firm.

#### Partner, Electronics, Yorkshire

Perfect for an existing Partner or Associate with either a small following or a good contact base. Help further develop an electronics practice in the Yorkshire region. The firm offers comprehensive support for sound commercial planning allowing you to develop your own ideas for a successful business. It is well run, has had an excellent track record of recent accomplishment and a management team with a good sense of the requirements for a prosperous future in a globalised market place. An almost blank canvas, with an unlimited supply of paint and brushes. This is a key role for the firm and requires a true artist.

### Other Opportunities:

#### Emperor, Baron, Caliph, Tsar, Electronics Wuderkind, and Welsh Sympathiser

Be a leader, be a chief. Be in control, be the centre of a new kind of thinking. Time to raise your sword and scream to the heavens. Achieve and flourish or fail and wither. Take your electronics expertise and your strong sense of self worth to build a practice in Wales in your own way, in your own time but with a highly successful brand giving you all of the resources you need to build your fiefdom. Not for everyone, indeed not for many, but for you – it's destiny.

#### Biotechnology, Qualified London

This is no plucky pretender but a genuine biotech powerhouse. A private practice team of true professionals with a 21st century business philosophy offering a chance at a realisable and sensational future. Want to be Partner? You will and you will know how to get there. Want international, cutting edge, complex and challenging work? It's in almost endless supply. Don't sit there pondering, fortune favours the brave.

#### Chemistry, Part Qualified, Yorkshire

Suddenly it appears there's work in chemistry. Where better to be a chemist than in Yorkshire for a firm that has proven itself to be a consistent recession defier? Loads of work, fantastic training, and no holds barred, seat of your pants, organic chemistry. What more could you want?

#### Electronics, Part Qualified/Newly Qualified, Midlands

Being a patent attorney isn't all about preparation and prosecution - to be successful in this new economic environment you will need so much more. This private practice is keen on creating highly commercial business people who happen to be patent attorneys. Gain insight and focus that will take your skills beyond that of your peers and enable you to take advantage of an ever changing market.

#### Electronics, Qualified, London

In an absolutely remarkable run of form, this private practice simply can't stop itself getting new work. A clever marketing strategy, a balance of focus between quality and commerciality and a Partnership that agree most of the time they offer a sound proposition for an attorney seeking recession proof security and career defining opportunity. Clients are varied, unusual and jaw droppingly impressive as is the wide range of very exciting work. Demanding yet rewarding culture, time to find out more?

#### Biotechnology, Qualified, Midlands

Done with messing around? Want something just that little bit more challenging? A private practice with a good pedigree needs you. Who are you? Well you like variety and a healthy mix of direct and indirect work but you also have flair and panache and want for something more. This biotechnology practice is going through an exciting phase of development and needs free thinkers like you to make them fizz.

#### Electronics, Part Qualified/Newly Qualified, Bristol

Planning your future? This private practice offers an honest assessment to all fee earners of what might be achievable and by when, and even better than that, will make sure you get there. In the meantime they have a fantastic range of clients and some incredibly tantalizing work.

#### In House Patent Attorney, Electronics, Home Counties

A key strategic hire for a global corporation. You will be a commercially minded, major player with technical expertise in telecommunications. You will have a keen sense of politics, particularly when it comes to the EPO, and an ability to develop excellent relationships with R&D and a network of contacts worldwide. This is a broad based position taking in drafting, prosecuting, licensing and litigation.
