

Featured Positions

Biotechnology, Qualified Attorney, London

High quality work from high quality clients – a portfolio that it is entirely biotechnology based and is diverse, interesting and global. A role that demands a great deal but offers considerable new experiences – consultancy, oppositions and direct client contact. A firm that appreciates your value and ensures you are amply rewarded. A firm that knows where you are heading and helps you get there. Above all, a firm that has been and is continuing to be very successful.

Electronics (or Mechanical with Electronics), Qualified Attorney, London

A firm that many wish to work for but few succeed in being selected. A firm that prides itself on excellent management of its Fee Earners such that you become the best possible Attorney you can be. A firm with aspirations for growth, meaning new Partners, even more clients and a requirement for considerable involvement of its Attorneys at all levels. A firm with some of the best brains in the profession globally and a clear development strategy to remain a UK leading practice.

Other Opportunities:

Chemist, Qualified Attorney, Partner Designate, Yorkshire

With an ever increasing workload, this private practice requires an Attorney able to associate with important clients (many of them global corporations) across a wide range of issues. As the firm is growing, there is the need for additional Partners and so this role has a certain trajectory attached to it. This could be a fast track to significant career development for a recently qualified Attorney or the next logical step for someone who should be on the verge of partnership elsewhere.

European Qualified Attorney, Electronics, Munich

Global electronics corporate with an expanding Intellectual Property department requires a recently qualified European Patent Attorney for their Munich operation. Ideally you will have experience of telecommunications and certainly good European drafting and prosecution experience from your current position. German language skills will be desirable but are not a requirement. The company moves in a highly dynamic sector and therefore the quality of the experience you will gain will be second to none.

Biotechnology, Finalist, London

Rapidly expanding Life Sciences department of this leading private practice requires additional support from an Attorney near to qualification. You will be given ample support through the final stages of your examinations and some fascinating work with an impressive client list to support your growing knowledge.

Physics, Part Qualified, Oxfordshire

Distinguished firm requires a part qualified Patent Attorney with a Physics (or related academic area) background. A wonderful opportunity to further develop your career within a supportive environment, working with some leading IP professionals.

Electronics, Part Qualified, South West

Progress your career in the South West with excellent training support, interesting clients and a supportive and successful team around you. The firm encourages teamwork whilst rewarding individual success.

Mechanical, Qualified (or Finalist), London

A friendly firm that offers an excellent work/life balance is growing its Mechanical team. The practice benefits from a positive environment that encourages career advancement without being too political about it. They work with some superb clients and you will be inspired to develop your knowledge and expertise. Benefit from relative autonomy and the possibility of an excellent future – the practice has a worthy record of creating new Partners.

Patent Attorney with Pizzazz, Paris

French speaking, European Patent Attorney (ideally but not necessarily with experience in a French speaking country) required for this leading French firm. You will be a key factor in the practice's renewed success and hence required are leadership skills, the ability to inspire, a business development track record and an entrepreneurial spirit. Scientific background is of little concern as the workload can be accommodated to take advantage of your knowledge. This is a rather unique chance to gain considerable influence in the IP community in France.

Part Qualified, Electronics, London

Great clients; superb training; interesting (and diverse) work; and super career progression. If you love electronics but are not so fond of your current firm why not give this position a try? Based within a team of extremely knowledgeable and capable Attorneys the role could give you a great chance of qualifying quickly.

Electronics Part Qualified, Yorkshire

Benefit from a well balanced diversity in your work portfolio with a mix of drafting, oppositions and prosecution. Post qualification, future potential is fantastic. In the meantime, work with some world leading electronics companies.

Franchising Opportunities

Run your own firm or considering doing so? Want some of that considerable risk mitigated? Get support for your start up business and benefit from marketing muscle, technical knowhow and administrative support.
