

Newly Qualified Mechanical Patent Attorney, London

Start your career in the best possible setting by joining one of the UK's largest private practices. With an excellent training record they offer their associates the chance to develop a successful career in a supportive yet meritocratic environment. Along the way, you will work with large international clients and be exposed to significant amounts of original drafting, oppositions and more contentious issues.

Qualified Electronics Patent Attorney, London

We appreciate that as an electronics patent attorney demand for you is high. However, this position offers a chance to be at the fore front of technology working directly with clients on a whole range of issues.

Qualified Material Scientist, Kent

Join a well-respected private practice based a stones' throw from London and surround yourself with the same internationally recognised clientele, only with the added benefit of rural England on your doorstep. The work focuses on semiconductors, glasses and nanostructures so a keen interest in technical detail is a must, as well as being able to handle high end and detailed contentious work. This is a fantastic role offering a world class career with an excellent work life balance.

Part Qualified/Qualified Electronics Patent Attorney, London

An excellent opportunity has arisen for an electronics specialist, with experience in telecos in relation to the radio access domain, preferably standards-related. If you are a forward thinker then this firm are willing to recognise your hard work and dedication both professionally and financially.

Overseas Opportunity: Part Qualified/Qualified Chemist, Singapore

We're on the lookout for Chemists who would consider a move to Singapore. Build your Asian network and experience, have a great base to travel from and benefit from a generous salary with only 10% income tax.

Qualified Mechanical Engineering Patent Attorney, London

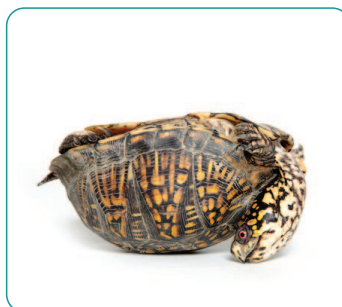

This well established firm has been increasing their department size after a profitable and recession proof few years. They are now on the search for a Patent Attorney with at least 2 years' experience post qualification, specialising in all things mechanical, to add to their talented team. You will deal with a broad spectrum of work and be responsible for a varied portfolio of prosecutions, oppositions and appeal work, all whilst becoming an integral part of their outfit.

Part Qualified Biotechnology Patent Attorney, London

A newly created position for a biotechnology specialist has become available in one of the UK's most reputable firms. The position offers the right person considerable exposure to litigation and prosecution work - requiring an analytic mind to create strategic solutions to IP issues. The firm operates on a meritocratic basis and so, if you're doing it right, then it's noticed and rewarded.

Newly Qualified Biotechnology Patent Attorney, London

A leading London based firm is seeking to hire a newly qualified attorney to join their ever expanding Life Sciences department. The firm are able to offer an exciting environment for a newly qualified attorney with direct access to clients from the beginning, and a chance to enhance your skill set with a variety of work. If you are determined and have the ability to deliver results then this is the role for you, as our client has a proven record of significant career progression through its adoption of a meritocratic working environment.

Part Qualified/Qualified Electronics Patent Attorney, London

Become part of a team (rather than a rung on the career ladder) and work with internationally recognised and (quite frankly) exciting clients. This firm are looking for candidates with experience of mapping patents to standards technology, preferably from a recognised teleco equipment manufacturer. Tailor your schedule to suit you and benefit from a mixed bag of work, including significant exposure to more strategic IP matters.

Qualified Mechanical Engineering Patent Attorney, Yorkshire

Join this boutique outfit in the heart of Yorkshire as a mechanical specialist. The firm offers an excellent mix of work ranging from prosecution to becoming an advocate and providing strategic advice along the way. They have a belief in high standards and the right person will have a strong academic record, an eye for detail and technical flair.

Electronics Patent Attorney, Yorkshire

This role is a must for those looking to join a practice with a proven track record in excelling their staff to higher stratospheres. There is a large amount of direct client work and original drafting, with the opportunity to develop your own career and practice in the process.

Qualified Electronics Patent Attorney, Midlands

An opening for a candidate with 2 years' PQE has arisen with a quietly confident private practice. This firm regards client relationships as paramount and operates a fierce team mentality. Whether it be a trainee or a Partner, everyone is heard.

Finalist/Newly Qualified Mechanical Engineer, Midlands

Meet clients from the off and benefit from active delegation from the Partners. Want more opposition and appeal work? Ask! Fancy trying your hand at more contentious issues? Do it! This firm understand your needs and delivers when asked.

Mechanical Engineering, Senior Associate, London

This prestigious private practice is looking for a Senior Associate to make some noise in their Engineering department. Use your business development experience to grow their practice and, if successful, develop it into your own. Have a say in the strategies implemented by both the firm and clients alike and be integral to their future. There is established work and a client base also waiting for you, so it's not all networking and handshaking.
