

### Part Qualified/Qualified, Mechanical Engineering, London

A fiercely modern private practice backed by many years of success is currently on the lookout for a Mechanical Engineer. The firm offer an eclectic mix of work ranging from original drafting, opposition and appeal work through to more detailed and meticulous prosecution. There is the opportunity to become a pioneer of your own portfolio, with regular direct client contact and the chance to be a strategic advisor and implement designs integral to future IP plans.

### Part Qualified/Qualified, Chemistry, London

A leading private practice with continued success throughout the recession is looking to tame their growing workload with the introduction of both a Part Qualified and Qualified Chemist. Rub shoulders with some of the leading Pharmaceutical companies in the world and take responsibility for their on-going IP plans. Become an integral member of the team where your ideas will help shape the future direction of the department, all whilst benefiting from a generous remuneration package.

### Part Qualified/Qualified, Mechanical Engineering, Wales

Join a boutique private practice operating as a modern meritocracy on a foundation of years of established success. The firm are currently looking to increase their Engineering department with the addition of a Part Qualified/Qualified Patent Attorney. The successful candidate will be responsible for a mixed portfolio of work, including high end contentious issues, and the opportunity to build and perfect their own client base.

### Part Qualified/Qualified, Biotechnology, London

Break away from the mundane day-to-day and begin tackling a more varied portfolio of work, with high end, intricate prosecution becoming a regular task. This is a fantastic chance to join a firm with a solid reputation for success and who hold some of the world's most recognised and respected Biotechnology companies as loyal clients. The department is growing at an astonishing rate and so there is room for both Part Qualified and Qualified Patent Attorneys to be welcomed on board.

### Qualified, any discipline, Luxembourg

This is a fantastic opportunity for those seeking a new challenge and environment, whilst benefiting from the security of working for an internationally recognised and established private practice. Soak in the culture whilst furthering your career with significant drafting and opposition work, plus some high end prosecution and litigation. You will be an advisor to an extensive portfolio of clients from across the Greater Region and beyond and provide ideas that will shape the future of your department and clients alike.

### Part Qualified/Qualified, Mechanical Engineering, South West

This is a prime opportunity for those wanting to leave the noise of the capital behind but still benefit from proximity to a vibrant and affluent city. Witness your career flourish in picturesque surroundings with a support network and meritocratic structure that will enable those who are motivated to succeed. An established portfolio of work will ensure direct client contact and original drafting from the off, with the chance to put your business development skills to the test and build up your own practice along the way.

### In House Opportunities

We currently have exciting in house opportunities for chemists and/or biotechnology Patent Attorneys who are qualified with circa 1-5 years PQE.

### European Qualified, Electronics/Mechanical Engineering, Stockholm

We can't seem to quit with our international partnerships and are currently sourcing a European Patent Attorney with either an electronics or mechanical engineering background to join a growing firm in Stockholm, Sweden. The successful candidate will gain a number of client portfolios and will assume responsibility for drafting, prosecuting and providing strategic advice along the way. Business development skills are a must, as the firm is continually looking to grow – indicating career advancement is somewhat guaranteed.

### Part Qualified/Graduate, Electronics, Luxembourg

One of the largest global IP firms in the world is offering a Part Qualified Patent Attorney, or Graduate with a desirable academic background, a chance to join their ever successful Electronics department. The firm have an enviable reputation, both collectively and individually, and enjoy an assorted client base with substantial original drafting plus more contentious work and regular direct client consultation.

### Patent Engineer, Telecommunications, London

A boutique firm of IP professionals are looking to offer an Engineer with knowledge of mapping patents to standards technology a foot in the door with this current opening. There is no prerequisite for prior exposure to IP (although this would be desirable) and although your background and qualifications may differ from the majority, the meritocratic environment will reward equally well. Hold responsibility for patent validity searches, assist in applications and let your opinions and ideas be heard, all whilst benefiting from a pristine training schedule.

### Salary Survey

Following on from the success of the Salary Survey in 2012, Fellows and Associates are pleased to announce that it is back and live for 2013! This is a great chance to gain some transparency on current salaries, aspirations and locations in the world of Intellectual Property through objective and unbiased data. If you would like to contribute to this fantastic cause, find out more information at [www.fellowsandassociates.com/survey2013](http://www.fellowsandassociates.com/survey2013)

### Part Qualified/Qualified, Electronics, London

Join a modern and fast paced firm and use your niche electronics knowledge to carve yourself a successful career. The ideal candidate will have experience of mapping patents to standards technology and also be aware of the processes of internationally recognised telecommunication equipment manufacturers. There is a varied portfolio of work waiting for you, including more detailed contentious work and some litigation. Regular direct client contact is essential to the role, enabling you to become a trusted advocate and strategic advisor.

For more information or to apply to any of these roles speak to Pete Fellows or Phillipa Field on 020 7903 5019 or email: [contact@fellowsandassociates.com](mailto:contact@fellowsandassociates.com).
