

Perhaps  
it's time  
for a more  
considered  
approach  
to recruitment?

Hokum-less  
consultancy.

## Featured Positions

### Commercial Patent Attorney, Entrepreneur, Yorkshire

The new initiative for this private practice requires a talented Patent Attorney and strategic thinker. Given your strong sense of enterprise you will be keen to develop new opportunities and build on the already strong work flow of the firm. You will relish networking and love a challenge. Electronics/Computing/Physics background.

### Biotechnology, Partner Potential, London

Join a thriving, extremely successful biotechnology practice which has grown at a rapid pace. Work with an exciting, diverse and dynamic client base. Be at the cutting edge of biotechnology. Enjoy the benefits of a firm which present ample opportunities for progression towards partnership and a culture based on merit.

## Other Opportunities

### Electronics, Qualified/Part Qualified, Scotland

Direct clients. Commercial, strategic advice based IP consultancy. International workload. Friendly, welcoming, environment. Unrivalled business opportunities that will cement your long term career through or post qualification for a rewarding future. A private practice at the heart of the IP sector in Scotland.

### Biotechnology, Finalist, London

What will happen when you qualify? Not sure you will get what you deserve? Doubt that anything will change? Take control of your career and join this burgeoning biotechnology department, one of the most successful in the London market.

### Electronics, Part Qualified, London

Great training, great support, superb peer group, interesting client work, fantastic remuneration, strong brand, consultative approach, diverse workload: oppositions, appeals and original drafting.

### Electronics/Telecommunications, Part Qualified, London

Pure telecommunications position for a true purist. Get great support from an appreciative Partner. Be encouraged through your training. Benefit from a structured career path.

### Biotechnology, Corporate, Part Qualified/Qualified, Brussels

Give your life an international dimension by moving in-house with this leading corporation. Attain exposure to all aspects of corporate IP: strategic decision making, patents from scratch, licensing and litigation. Work with inventors for a fully reasoned IP solution.

### Biotechnology, Part Qualified, London

Learn from some of the best. Work for one of the most exciting client portfolios in the profession. Look beyond qualification to excellent opportunities for short and long term career growth. Enjoy a quality orientated culture.

### Electronics, Qualified, London

Some firms promise partnerships others need budding partners thrust upon them. This firm is busy creating opportunities for its staff through consistent, quick development. Your long term potential is limited only by your own determination.

### Electronics/Physics, Finalist, Yorkshire

Not for the faint hearted. A chance for early exposure to business development and direct client work whilst finishing your exams. Leading brand, leading clients, you will be truly invested in.
