

Choice is everything

Featured Positions

Commander and Chief, Electronics, South West

Help develop and lead a practice's new initiative in the South West region in the UK. You will ideally be a qualified Attorney with a background in electronics or electrical engineering. You will be keen to make your mark and perhaps be attracted by a firm with a philosophy that is decidedly 21st century. Be supported to grow a practice by innovative marketing, strategic and commercial thinking prevalent throughout the firm, and a desire to succeed based on sound financial principles and realistic yet challenging ambitions.

Intellectual Property, Business Development Manager, London

Lead the European sales strategies of an international Intellectual Property giant. Headquartered in the USA with interests globally the company wishes to grow its European operation by recruiting an enterprising Business Development Manager with flair and panache. The role operates across the IP spectrum and you will therefore build relationships with private practices, universities, SMEs and individual inventors. German fluency required.

Other Opportunities:

Small Firm Acquisition

Fellows and Associates is working with this private practice keen on rapid expansion by acquisition of small to medium private practices with turnover in the region of £500,000 - £1.5 million. Perhaps it's time for an exit strategy? Then leave your work and employees in very safe hands and benefit from a fair and reasonable valuation.

Electronics, Qualified, London

A rare example of an expanding electronics practice. This client have grown every year for the last few and have built a reputation on expertise that has enabled them to win work from some of the largest companies in the world.

Electronics, Qualified, Yorkshire

Work with local inventors and via networking be a focal point in the local IP community. Develop a career that suits you by building on your own interests to develop a formidable practice. Be ably supported by a highly professional team.

Telecommunications, Part Qualified, London

Perhaps you are not getting the specialist work you had hoped for in your current position? Then address this by working for a leading telecoms expert and via supportive training and clear objectives becoming his right hand person.

Biotechnology, Qualified, London

Direct clients. Oppositions. Large international companies. Culturally entrepreneurial. Recession proof practice. Partnership eminently achievable. This firm are turning work away when many of their competitors have been struggling to find any. Their recipe for success just needs its final ingredient.

Mechanical Engineer (with some Electronics), West Midlands

A chance to be at the centre of everything. A key point in practice development strategy, this West Midlands based role has genuine partnership prospects and the scope to develop your own client portfolio.

Electronics, Finalist, London

"I'm just looking for something different, I'm not really sure exactly what but I know it's out there". These were the sentiments of the last Attorney who joined this firm through Fellows and Associates, maybe you could be next?

Biotechnology, Finalist, London

Fast track to early success post qualification by gaining considerable experience before you qualify. The firm's client pool is second to none and they have a strategy that will almost guarantee your future success.
