Featured Positions

Qualified Chemist, Partner or Partner Designate, Patent Attorney, London

Chemist with a pharmaceutical bent to their experience and a commercial edge required for this autonomous and career enhancing role with a major private practice. You will benefit from a considerable portfolio of existing work whilst been given the freedom to build your own with a view to eventually developing a team around you. The firm has been enjoying significant financial prosperity over recent years and can offer genuine and far reaching career prospects. Candidates will be considered who are leaders, who can work entirely autonomously, who are creative and goal orientated and who play well with others.

Electronics Wizard and Qualified Patent Attorney, London

This firm does not recruit very often. That's because when they do, the people they find, usually never leave. So they're very well run. They also benefit from almost universal praise from their competitors as a firm they wished they ran. They've got some truly magnificent clients. And they're not afraid of being creative. They've got some terrific Partners and super staff, they are excellent at supporting people and offering them what they need. Their attorneys enjoy diverse, interesting and often consultative work. The firm is a proper 'name' in the profession. Everyone wants to work for them. So should you.

Other Opportunities:
