Featured Positions

Qualified Patent Attorney (Electronics), London

Absolutely unrivalled client base. Work on cutting edge technology, with businesses defining a generation. Much of the work is direct, some is international and all is exciting, varied and challenging - you certainly won't be bored. Coupled with this the firm has restructured its partnership such that becoming a Partner is highly achievable, actually desirable (sometimes you have to be careful what you wish for) and has real management import on the firm as a whole.

Qualified Patent Attorney (Chemistry), London

It has been a tough few years and many patent attorneys in private practice have experienced a severe shortage of decent chemistry work. If that sounds like you then help is at hand. The firm we're recruiting for laughs in the face of recession and skis down a downturn to get the chairlift back to the top. They've kept their clients but they've also got quite a few more over the last few years. They're a genuine success story. It's time you were too.

Other Opportunities:

Trade Mark Attorney, Qualified, London

Bohemian private practice needs an artisan Trade Mark Attorney for their London office. You'll be very creative – an ideas person, with your own sense of direction. You will be up for the challenge of developing a client portfolio beyond what already exists, working with a Trade Mark Partner in business development and networking. You'll be well supported and the firm will be behind your artistic flair. You should be a consummate wordsmith, with the ability to create new relationships. You should have had at least some experience of business development, or be able to demonstrate a disposition for it through attendance of networking events or similar activities.

IP Solicitor, London, c. 2-4 Years PQE

This leading UK law firm's IP practice is expanding its London operation and is therefore seeking a Solicitor (or possibly two) to join its team. The work will primarily be contentious but will include some non-contentious matters. Ideally you will have experience of patent litigation although all-round contentious IP experience will be highly regarded.

Biotechnology Patent Attorney, Qualified, London

Work for one of the most respected biotechnology departments in London in a team with a number of highly experienced attorneys that will help you progress your career. You will undoubtedly enjoy a selection of high quality direct clients and international work, as well as being paid handsomely for your efforts.

Electronics in the Northwest: Two Opportunities

We are recruiting for a Qualified and also a Part Qualified Electronics Patent Attorney in the Northwest. Enjoy a healthy direct client base, great potential for self-development, strategic support to enable you to achieve your objectives and being part of an organisation that recognises a good contribution.

Chemistry, Part Qualified Patent Attorney, London

Move somewhere where you'll have more work than you can handle for a change! This firm is well known for giving its attorneys early responsibility and if you want to learn, that's what you need. You'll enjoy a mixed bag of experience from drafting to oppositions.

IP Solicitor c. 2-4 Years PQE, Oxfordshire

Work with a superb, high quality client list made up of many household names and leading corporations. Enjoy a varied diet of intellectual property work, including trademarks, commercial IP, contract law and dispute resolution. Work for a boutique IP firm with a story of tremendous success and growth to tell. The firm is made up of lawyers with exemplary pedigree who you will learn a great deal from. You'll gain a huge amount of IP experience and have a career path that, as the firm grows, will always be tremendously exciting.

Mechanical Patent Attorney, Yorkshire

Exceedingly good role working for a firm with a great reputation and some highly varied, intellectually challenging direct client work. The position would likely suit someone almost qualified up to perhaps 2-3 years post qualified albeit candidates with more experience will be highly regarded.

Mechanical Patent Attorney, Finalist/Qualified, London

Love your engines! Start your motor. Get covered in oil and discover the latest inventions in the mechanical arena. Benefit from loads of support from your team, a great deal of variation in the day-to-day and a scope to develop your career working with the technology that you adore.

Electronics, Part Qualified Patent Attorney, London

This firm has some of the most high profile Patent Attorneys in the UK profession working for them. Enjoy a reflected glow whilst getting your hands on not only the norm of preparation and prosecution but some fun contentious work. This role is a great way to achieve a rounded portfolio of skills.

Engineering, Part Qualified Patent Attorney, London

Engineering posts have been few and far between in recent years, so take a chance while you can. The firm certainly has some great ideas and is keen on creating Partners in the future. They also have a very decent portfolio with some interesting direct clients and scope for building your international contact base.

For more information or to apply to any of these roles speak to Pete Fellows or Emma van Opstal on 020 7903 5019 or email: contact@fellowsandassociates.com.
