

**Some things
are better with
a partner...**

**Merger and Acquisitions mediated by
Fellows and Associates**

- International firms seeking relationships with UK businesses
- UK firms wishing to acquire greater national coverage and client penetration
- Strategic arrangements between non competing businesses
- Small firms and sole practitioners requiring an exit or the security of a larger practice
- Firms requiring advice and ideas on how a business might be integrated including financial due diligence as part of the package

A growing area of operation for Fellows and Associates is introducing firms to merger or acquisition opportunities. We are currently working with a number of international practices seeking entry into the UK market as well as UK firms interested in expanding their practices. We have an extensive portfolio of contacts seeking merger, most of which have an impressive profit to billings ratio - a wise investment for the right buyer. If a merger and acquisition strategy fits with your business planning either as a buyer or a seller then allow us to facilitate a deal for you that will suit your needs and represent good value for money.

Positions presently on our website include:

Biotechnology, Qualified - London

Excellent, world renowned clients; superb career prospects incorporating likely partnership potential; recession resilient private practice.

Chemist, Part Qualified - London

Would be an ideal second job for a Trainee Attorney, enjoying the profession but underwhelmed by their current working environment. This firm could represent a significant career leap.

Electronics, Part Qualified - London

Training is paramount and so your progression will be secured and supported. At the same time you will develop skills autonomously creating the attributes of an all round attorney

Corporate Patent Attorney (Qualified), Electro Mechanical - Home Counties

Managing a team of two, this is a superb opportunity to broaden out your IP skill base beyond preparation and prosecution. Get involved in strategic IP and work for a global business with cutting edge technology that is at the forefront of its sector. Accept this position and put yourself on the world map as future IP Chief.

Biotechnology, Finalist - London

Cutting edge technology, new wave, new ideas culture. Merit based rewards structure. Diverse work load, good ratio of direct/indirect/international work from blue chip clients.

Electronics, Qualified - London

For high technology enthusiasts; get your hands dirty and benefit from a peer group shares your interests. They love technology and make it part of their key criteria for choosing clients.

Trade Mark Attorney, Qualified - Northwest

Arguably one of the best Trade Mark client portfolios in the business. The firm just needs a contender to carry the work further forward. Partnership a definite option.
