## Featured Positions:

### Partner, Biotechnology, Yorkshire

It's not easy getting a Partner position in 2012. Firms are making it more difficult by increasing the hoops you need to jump through or entirely bolting the doors shut. This firm is different. If you are an existing Senior Associate, or a Salaried/Fixed Share Equity Partner wanting to advance then this practice will offer an excellent solution. The firm is prepared to offer a Partnership role to high calibre attorneys with a great track record, and a share of Equity in short order. They are seeking someone with expertise in biotechnology to complement their current offering and are unconcerned as to whether you can bring clients with you or not.

### Partner, Physics/Engineering/Electronics, Yorkshire

Be a highly influential part of this smart private practice in Yorkshire. The firm has been enjoying making good on its business plan over the last couple of years and requires a new Partner to help the business grow more rapidly. There is work for you to do from day one but an appetite for business development will be highly regarded. This is a great opportunity for an existing Partner or Senior Associate wishing to find a fast track to full Equity Partnership, cut down the wait but don't cut corners.

## Other Opportunities:

### Associate, Electronics, London, Salary to £70,000

Clients that no-one else has. A firm at the cutting edge of developments within electronics. Proliferous direct client work and the opportunity to be hands on with your clients – not just prosecuting but advising and developing a strategy. The firm is very open in terms of its culture so you will be heard and have influence.

### Qualified Trade Mark Attorney, London

Help grow a rapidly expanding business from the strategically important base of the UK. A firm that offers a different approach to the traditional private practice is seeking a progressive and tenacious qualified Trade Mark attorney. Thrive in an environment where you can spread your wings and build upon your existing business development experience. Revel in gaining the support and skills needed to build your own practice and have your ideas and strategies welcomed with open arms. An opportunity not to be missed.

### Senior Associate, Electronics, London, c. £90,000

Join with one step to go to partnership and be remunerated very handsomely in the interim. The firm need a new, professional, astute and commercially minded member of their team to deal with some of their most precious client accounts. The work is tremendously exciting and in many cases so secret they won't be able to tell you who their clients are until you've joined them.

### Electronics, Finalist Level, London

Join one of the most high profile firms in London and be surrounded by like-minded people within an encouraging and supportive environment. Be part of a department that has been growing rapidly and, with a tremendously successful peer group behind you, enjoy the benefit of honing your abilities on cutting edge technology.

### Part Qualified and/or Finalist, Engineering, London

Enjoy a mixed bag of work? Deal with everything from car engines to guidance systems in a broad based portfolio that will always keep you interested. With a fantastic training programme to boot and an excellent pay structure take a super career step while you can.

### Biotechnology, Patent Attorney, London

Direct clients amongst the leading names in the biotechnology sector. An extensive array of international work. Numerous opportunities to be involved with high value contentious work. Client contact for all levels of attorneys actively promoted by the firm. Fantastic bonus scheme, plentiful internal support and encouragement for career growth.

### Partner Designate, Electronics, Manchester

A firm with excellent pedigree, superb clients and a local business development strategy need someone to help them lead the charge. The role would be a perfect fit for an Associate frustrated by a lack of career opportunity and therefore seeking a more meritocratic culture. You should like dealing with clients and looking for new commercial possibilities as well as having an excellent grasp of recent technical developments within the hi-tech sector.

### Part Qualified, Electronics, London

Progress on to the next rung of the ladder with this superb opportunity for a Part Qualified Patent Attorney in London. Do you feel you are sitting stagnant in your current role? Does your enthusiasm and tenacity go unnoticed? Do you specialise in the highly sought after arena of electronics? Then there is only one thing for it, apply.

### Formalities Assistant, Yorkshire

Have control in terms of department set up and have influence on how formalities are dealt with by the firm. Enjoy a close working relationship with the Partners and benefit from the freedom to think for yourself and therefore provide effective support to the people you work with. Be paid well and gain a new understanding of what job satisfaction can feel like.

### Graduate Trainee, Physicist/General Engineer, London

Take the road less travelled with this fantastic opportunity with a forward thinking firm of Patent and Trade Mark attorneys. If you are a resolute and inspired graduate who wants to begin their career where the rewards and dividends are clear then make the career decision of becoming a Patent Attorney. It could possibly be the best decision that you will ever make.
