

## Featured Positions

### The Trade Mark Attorney role of 2010? London

Determine your future and with support, guidance and advice be given the chance to mould a department to suit your identity and business ethic. Build on an existing strong network of contacts to further develop your practice. Enjoy a broad based international focus. Benefit from fair billing targets and an attitude that allows for flexibility in working life. This is a priority hire for the firm and hence the role will be given a great deal of support to ensure that the successful candidate will be extraordinary. The defining position for a commercially orientated, trade mark entrepreneur seeking something just that little bit special.

### Biotechnology, Potential Partner, London

A new position with a major player. What's on offer? An ever increasing work load due to a highly effective client acquisition strategy; a route to partnership that is clear and achievable; a client list that generates envy in many of the firm's competitors; a chance to make a name for yourself by having influence on the further development of the London office; a firm that understands the zeitgeist and has manipulated its commercial and cultural sense to significant advantage; a firm that both wants and needs more Partners, thus opportunities for progression are assured.

## Other Opportunities:

### Chemist, Partner Designate, North West

For Associates not getting what they deserve (or even those that are but fancy a change) seize a chance to progress quickly whilst enjoying high quality work as a member of an incredibly productive team.

### Biotechnology, Qualified, London

A firm with a license to bill. Building on a hugely successful business strategy they now require even more attorneys for their Biotechnology Department. They can certainly offer significant choice and diversity in your work load and opportunities for development that will further your career quickly.

### Electronics, Qualified, West Midlands

Hi tech cutting edge technology clients garnered from a firm with a close, crucial and highly strategic working relationship with many of its clients. This is not just preparation and prosecution but so much more. The firm offers a flexible approach to ones work and an open and honest culture.

### Biotechnology, Qualified, North West

Benefit from this firm's sudden expansion of its biotechnology portfolio. Add the final touches to your experience with a chance to go it alone working autonomously with a client portfolio. Meet IP Managers and in house Patent Attorneys, building and fostering relationships. Be supported in honing your business development abilities and participate in prospective client presentations.

### Biotechnology, Part Qualified, Yorkshire

Join a highly profitable firm with a thorough and well organised training structure. Benefit from a capacious range of work and learn from some of the best in the profession. Candidates should have a good degree, have passed foundation papers/certificate in IP and have some relevant experience.

### Chemist, Qualified, London

A career making role – great clients, fantastic range of work (drafting, oppositions, infringement & validity, international prosecution, etc.) and a highly visible, strategically crucial, role well backed by the entire Partnership.

### Biotechnology, Qualified, Midlands

Friendly, social private practice that understands the need for a work life balance. They have noteworthy direct client work so you will attain a great deal of drafting experience and have the opportunity to provide IP consultancy to your clients. You will be joining the firm at the beginning of a new and imperative growth cycle.

### Biotechnology, Qualified, Yorkshire

Be part of an active Life Sciences Department that benefits from some indubitably excellent client accounts. Build on your existing abilities by broadening the scope of your experience in a role that offers true variety, choice in your responsibilities and fantastic realisable opportunities for career growth.

### Trade Mark Attorney, London

The Trade Mark Department of this major UK private practice has a multifarious client portfolio ranging from SME's to global corporations. The role encompasses the full scope of international trade mark work such as assessment and clearance, prosecution, revocation and invalidity, opposition, infringement and anti-counterfeiting.

### Electronics, Finalist, London

Fast growing electronics department needs yet another attorney to complement its team. Participate in prospective client presentations and be supported in honing your business development abilities.

**Newsire: Jobs in *biotechnology* have increased dramatically this month we currently have at least ten open positions at part qualified, qualified and Partner level. We have a number of *chemistry* positions at all levels nationwide and qualified *electronics* positions in the North, the Midlands, London and the South West. Given a successful trip to Boston for INTA we have various international positions available, particularly in *Australia*.**
