

BRIAN KNEW WITH SOME CONFIDENCE THAT TWO PAGES IN THE CIPA JOURNAL WAS NOT A TENUOUS REASON FOR A PARTY.

Featured Positions

4G Mobile Technology Expert, Patent Attorney, Qualification not Essential
 Exploit your extensive knowledge of 4G technology and work for a private practice at the forefront of the wireless sector. There is a great deal of flexibility with this role and therefore qualified Patent Attorneys will be considered but also potential attorneys perhaps currently in R&D. This role could represent a fantastic opportunity to enter the profession or, if you are qualified, a way to ensure your technical abilities are put to best use. With a client portfolio made up of leading international companies the role will certainly be exciting.

In House, European Patent Attorney, Electronics, South East England
 A rare chance to step into the corporate environment working for a leading telecommunications company. Deal with a high volume of interesting oppositions work; work closely with innovation teams and develop patent strategies; gain exposure to broader aspects of IP such as litigation and licensing. You will be a qualified European Patent Attorney but UK qualification is not essential. You will have a love for the telecommunications sector and the desire to develop a portfolio of commercial skills.

Other Opportunities:

Qualified Electronics Patent Attorney, London
 The fast growing electronics department of this leading private practice offers the chance to build a range of skills beyond just preparation and prosecution, working with a healthy mix of direct client and agency work. With a career development plan in place for all of its Associates and a superb track record of consistent growth throughout the recession the firm can offer both security and career advancement.

Qualified (or near qualified), Patent Attorney, Electronics, London
 For a chance to work autonomously, get involved in business development and a generally more interesting week apply for this position at a one of the UK's best firms. With a highly commercial culture where panache and individuality are encouraged you could thrive here if you see yourself as a management consultant and strategic advisor as well as a Patent Attorney.

Biotechnology, Finalist/Newly Qualified, Patent Attorney, London
 Join a doubtlessly fantastic team of individuals that will help you achieve more by increasing your knowledge and exposing you to a range of work that will really wet your appetite. The practice has a significant reputation in the biotechnology sector which will massively improve your profile.

Electronics, Part Qualified, Yorkshire
 Seriously impressive clients are one of the key attractions of this role - work with some of the leading companies in the world. Also not to be sneezed at is a great training programme and support to develop your job in a flexible way.

Trade Mark Practice Acquisition
 If you are 2-3 person practice in the London area wishing you were part of something a little bigger then our client would be interested in speaking to you. Perhaps you turn a profit but are worried about the long term? This might present the eventual exit route you have been seeking.

Biotechnology, Qualified Patent Attorney, London
 With the biotech sector possibly turning the corner on recent difficulties this practice is well placed to take advantage of potential new work. With a highly professional, dedicated and organised team you will learn a great deal and develop your skill base to enable future exciting possibilities. There is a varied mix of work including plenty of oppositions.

Chemist, Part Qualified Patent Attorney, London
 You are around 3 years or so into your career, you enjoy the life of a Patent Attorney and the work but you're not sure about your current firm? Or you love your firm but are not getting the range of work you need to progress? Time to cash in and change up. Get everything you need via great training, varied interesting work and a culture that fosters development.

Electronics, Entry Level, Yorkshire
 Hope to become a Patent Attorney? Now's your chance. You will need to have an excellent degree in electronics or electrical engineering, superb attention to detail, understand the art of communication and not be averse to the odd bit of business development once you have some experience.

Electronics, Qualified, West Midlands
 Working with a highly regarded attorney in the high tech arena with a truly cutting edge range of innovative clients this is a role for nerds (in the positive sense of the word). Love new technology? Then you'll love this role.

Electronics, Part Qualified, London
 Time to make sure you get everything you want from your career as a Patent Attorney? Guarantee this with by joining a fabulous firm with a super training programme and some excellent client connections.
