

Capture the Spirit of Adventure

Featured Positions:

Medical Devices Qualified Patent Attorney, In-House

This role would potentially be applicable to range of scientific backgrounds (chemical engineering, engineering, biotechnology, pharmaceuticals) as long as you have an excellent knowledge of, and interest in, medical devices. You might have a broad technical background and are finding yourself in too niche a role, or you have an interest in medical technology that is currently underutilised. The role itself involves a high volume of global contentious work as well as developing IP strategies and IP capture.

Material Scientist, Qualified Patent Attorney

Ready to leave the rat race? A leading firm is welcoming a Material Scientist Patent Attorney in their modest culture to help them appreciate the finer things in life. The work is high end with an interesting mix of prosecution with significant drafting and oppositions. A wide breadth of technical disciplines ranging from physics to nanotechnology will appeal to those who prefer a mixed bag of work. Everything needed to quietly advance up the career ladder is provided, all that is left to do is apply.

Other Opportunities:

Qualified Mechanical Engineering Attorney, London

Be let loose on your own clients, attend networking events, pitches for new work and enjoy involvement in the commercial side of the job. This is a role that is potentially a real step up for an Attorney currently not enjoying much autonomy. If you would like a career where you have more control and can advise your own clients directly then this firm, one of the leading firms in London, can provide.

Finalist/Newly Qualified, Biotechnology, London

Reflect upon your specialism and evolve into your new career. A renowned London private practice with a long standing pedigree yet contemporary culture and outlook is looking to expand upon their Biotechnology team with a Finalist/newly Qualified Patent Attorney. Enter an environment where your knowledge and skills will be nurtured and encouraged, resulting in definite career advancement adorned with all the rewards imagined.

Newly Qualified, Electronics, London

A firm well known for oppositions work requires an additional attorney for their highly reputable team. The firm has invested heavily in its infrastructure and can provide a well thought out support structure, highly effective systems and is able to minimise the challenges a Patent Attorney could face.

Part Qualified, Electronics, London

Ideal role for an Attorney seeking a more contemporary approach to intellectual property. A firm that prides itself on providing good commercial advice and involves its trainees heavily with its clients as early in their careers as possible. The training regime is also excellent with a tremendous record of success in relation to UK and European examinations.

Qualified, Biotechnology, London

Become part of a team renowned across Europe for its superior technical knowledge and rejoice in the autonomy and meritocratic culture that the firm rewards. The opportunity will allow for extensive direct client work across a diverse range of disciplines, both in the UK and abroad. The vast amount of experience available will surely result in a winning relationship; witness your job developing into something so much more: a successful career.

Qualified Electronics Patent Attorney, London

Cosmopolitan firm seek a highly skilled Qualified Patent Attorney specialising in Electronics. The boutique nature of this firm encourages a warm and friendly atmosphere within a very trendy setting and encourages personal development. Attorneys are given significant autonomy so the feeling of someone constantly looking over your shoulder isn't a worry here. There is a wide range of direct client work, allowing you to establish and build upon your own relationships whilst handling a highly technical and complex work load.

Part Qualified Patent Attorney, Electronics, London

Join a firm with an absolutely outstanding training regime and a genuinely lovely, social atmosphere supporting your progression through the examinations. The firm really looks after its employees encouraging career advancement and offering a range of experience to ensure you become an excellent patent attorney. Clients include a high proportion of direct work and cutting edge technology.

Part Qualified Patent Attorney, Chemistry, London

Stop stalling and grab hold of this fantastic opportunity to spread your wings and gain the experience and skills needed to fully qualify. A private practice with a grasp across the World is looking for a Part Qualified Chemist to benefit from their supportive environment and progress to become an integral member of the team. If you are currently experiencing frustration in your current role and cannot bear living out your qualified years unfulfilled then apply now.

Mechanical Engineering/Materials Attorney, London

Medium sized firm with a good mix of local and international clients. Would suit an attorney who is able to work autonomously and who enjoys a pretty varied portfolio. There should be a good balance between drafting and prosecution (with some contentious work).

Qualified Electronics, c.3-5 Years PQE, London

A firm with a huge volume of work, partnership opportunities and a highly sociable culture require an Attorney who is seeking an evolutionary career step. You will enjoy freedom to operate and be able to advise clients not just receive instructions. The client portfolio includes many household names as well as some highly complex and thus very rewarding work.

Qualified, Electronics/IT/Physics Patent Attorney, London

Enjoy on-going business success and growth in a flexible environment with an open culture. The firm in question offers direct client work that will both test and develop your skills over a broad range of disciplines. Experience a varied diary with contact ranging from major multi-national clients to small companies and individuals.

Qualified Patent Attorney, Yorkshire

It's easy to forget what being a Patent Attorney can be about – being close to inventors; advising business on intellectual property strategies that will define their operations for years to come; developing new ideas. If you want your passion rekindled a new and growing company with genuine career opportunities is looking to hire a Qualified Patent Attorney. The ideal candidate will be European and/or UK qualified and will have a technical background in physics, electronics or mechanical. There is a real chance to be an integral part of this firm with the opportunity for your voice to be heard, the sky really is the limit.

We are also recruiting for qualified Trade Mark Attorneys (in London), a Records Manager, Patent Formalities and two Partner positions in Yorkshire – one requires a biotechnology background, the other electronics. In both cases, the firm can offer salaried partnership immediately with the potential for equity partnership shortly thereafter.
