

I told you we should have put our towels down.

Featured Positions

Pharmaceutical Patent Attorney, London To £75,000 + Bonus

Big name private practice with even bigger name clients including many of the world's leading pharmaceutical companies. The firm is offering the chance to join at a time of rapid expansion and hence career advancement opportunities are ample, varied and very exciting. The practice has a highly commercial outlook and would perhaps suit attorneys attempting to escape a more stifling environment. They are proudly meritocratic, you will get what you deserve and if you prove yourself then your aspirations will certainly be realised. Do not miss out.

Electronics, Qualified Patent Attorney, London Circa £75,000 - £80,000

Join an extremely successful London private practice with a high volume of direct client work, particularly in the area of telecommunications. Given their recent growth there will be a great degree of choice as to your workload and it will be broad, ensuring that you get extensive original drafting experience as well as European oppositions and the opportunity to offer consultative advice. The salary offered is a guideline; the firm is prepared to pay a premium for a highly capable candidate but can also deliver on a promise of career progression towards partnership.

Other Opportunities:

Mechanical with Electronics, Qualified Attorney, London £Negotiable

Mid-sized firm that recruits for academic and professional excellence, as well as for partnership potential. They have a diverse client base, so there is no danger of getting stuck in a rut, but this also means you will be expected to go above and beyond your specialism. For this position, the firm prefers mechanical patent attorneys with an interest in electronics.

In-House Pharmaceutical/Chemical, Qualified, Greater London/Essex Circa £75,000

A rewarding position with a large pharmaceutical company. You will have lots of hands-on involvement including visiting R&D facilities abroad and clearing the way for the launch of new products. You will manage and support EPO and international oppositions and litigation as necessary, as well as provide legal advice and raise awareness of IP across the different business units. Part qualified applicants will be considered.

Biotechnology, Qualified Patent Attorney, Midlands £Excellent

An excellent opportunity for biotech attorneys in the West Midlands. Draft and prepare patent applications for filing, prosecute GB, EP and PCT patent applications, and participate in European oppositions and oral proceedings. This privileged private practice will have you doing multi-jurisdictional patentability research and much, much more for some global household name clients.

Mechanical Patent Attorney, Glasgow £Negotiable

Mechanical/automotive patent attorneys looking for excellent career progression opportunities in Scotland, this is your chance! You will enjoy dealing with a broad range of clients in a private practice known for its high-quality work, and to top it all off you'll have the bustling city and gorgeous countryside at your fingertips.

Electronics/Software, Part Qualified, London To £40,000

Work on primarily software patents for this well-known and highly reputable private practice with a superb training structure and considerable support for their attorneys to succeed in quick qualification. The firm has a great deal of EPO work and hence you will get exposure to oppositions and appeals from early on.

Biotechnology Patent Attorney, London To £75,000 + Bonus

Work with most of the top ten biotechnology companies in the world; enjoy plentiful direct client work; build your profile internationally; be encouraged to grow your own portfolio; benefit from a highly qualified team around you; and, earn a highly competitive level of remuneration.

Electronics, Senior Associate, London To £100,000

A broad range of technology but with primary focus on software. This firm deals with some highly impressive international corporations and can offer variety including European Oppositions and UK litigation. The firm will offer a highly competitive salary and will help you build on your previous experience and advance your career. They encourage free thinking and you will be quickly incorporated as an active contributor towards the firm's development.

In-House Electronics, Qualified, Berkshire £65-£85,000

Do you love working closely with R&D? Then this role is for you! With this cutting-edge global telecommunications company you will build your experience in patent strategy, litigation, EPO oppositions and IP consultancy while keeping up to date with the latest telecoms technology as you'll cooperate with R&D departments all over the world.

Electronics, Qualified Attorney, Manchester £70-£85,000

This contemporary private practice with offices nationwide offers significant independence within their Manchester team. The interesting range of work and motivated colleagues will bring out the best in you, and you will be encouraged to build a client base of your own. Make a name for yourself as a key player in an important office for the firm.

Electronics, Part Qualified, London To £55,000

Premier firm of Patent Attorneys building on its success by growing its electronics practice. The firm has a particular interest in telecoms and is often involved in complex and cutting edge technology from direct corporate clients. They also have a great deal of international work, in particular from the US and Japan.
