

Time to exit?

## Featured Positions

### Partner or Partner Designate (Any Technical Discipline), London

With plans for major development of the practice well underway this firm requires additional leaders in its London operation. Although they have a healthy portfolio of existing work across technical disciplines that they could give you; ultimately they want you to develop something of your own (or bring a portfolio with you). For the determined, the firm can offer autonomy to build in your own style, investment in you and your burgeoning practice and a clear sense of purpose to ensure you succeed.

### Biotechnology, Qualified, London

Biotechnology recruitment has been tough recently and there have been very few available positions (See our 'Review of the Market', on our website for more on this) which makes the fact that this firm have enjoyed fantastic success and demonstrable business growth, all the more impressive. Perhaps your current firm (or department) is worried about its future? Perhaps you don't see the opportunities that you once thought existed? Time to exit? Time indeed.

## Other Opportunities:

### Electronics, Qualified, London

Electronics department with an outstanding reputation in the UK and internationally and Partners with well rounded expertise. Technology at the absolute cutting edge and a range of work with a healthy balance between direct and indirect and drafting, prosecution and oppositions.

### Chemist, Qualified, London

A department distinguished by its highly impressive client portfolio and equally talented Patent Attorneys requires a dedicated, diligent qualified attorney to join its team. You will likely be newly or recently qualified although candidates closer to partnership may also be considered. Remuneration offered is excellent.

### Biotechnology, Qualified, London

Abundant, diverse, direct and interesting work could be heading your way if you join this premier private practice. They would allow you plenty of leeway to create your ideal role, with a relative absence of dictates and considerable autonomy. Career progression is fantastic with partnership a highly achievable target.

### Electronics, Qualified, Midlands

London levels of remuneration with a Midlands cost of living. Mix of clients from SMEs to global corporations. Frequent consultative client interaction massively encouraged, providing strategic advice an absolute necessity.

### Electronics Qualified, London

Choice abound. More work than they can handle means that you can choose the clients, technology and the attorneys you work with. Blue chip clients, international work, global corporations or SMEs the choice is yours. Now make it happen. In return you'll give your all and be rewarded handsomely.

### Electronics, Partner/Partner Designate, Scotland

Captain, steer your ship to these safer waters, with a fresh crew and new opportunities you can set forth with the sun at your back and the wind in your sails safe in the knowledge that your shipmates will support you whatever the obstacles are to be overcome. Booty is plentiful, Admiralty on the horizon.

### Electronics Newly Qualified/Finalist, London

Superb programme of continued professional development firm-wide to ensure that both qualifying and qualified attorneys alike are the best the market has to offer. Honest and open culture leads to a genuine meritocracy where excellent performance is generously rewarded.

### Electronics, Qualified London

Newly/Recently qualified attorney with a flair for commercialism invited to join this stylish private practice with strong sense of identity and an increasingly recognisable brand. Something just a little bit different from the rest of the profession, not to everyone's taste but could it be for you?

### Trade Mark Attorney, London

The chance to lead a small (but perfectly formed) Trade Mark Department with an existing client base with a need for new direction. Seeking a role to help define your career and build something you can be very proud of? If you are a creative thinker with commercial know-how tell the casting agent this is your part.

### Electronics, Part Qualified, London

Considerable investment in training, excellent access to Partners, direct client work and direct exposure to clients, plentiful and wide ranging work including numerous oppositions. Be treated to significant early responsibility.

### Life Sciences, Partner Designate, Scotland

Perhaps its time to move back to Scotland from career so far elsewhere in the UK? Or perhaps you are already there but not with the firm you really hoped for? Be given an almost blank slate to develop your ideas for empire building but with the support of a brilliant team and a pre-existing client portfolio.

### Biotechnology, Qualified, Midlands

A practice changing with the times needing further invigoration. They will allow you to be inspiring and help you develop your leadership potential. They can give you a delicious career path and enable you to flourish in a highly commercial environment.
